

About Solar Growth

Solar Growth Limited (“Solar Growth” or “the Company”) is a UK-focused solar energy generation company offering investors access to inflation protected UK solar and other energy projects with a target return of 4-5% per annum.

Acquisition Policy & Strategy

Solar Growth owns and operates UK solar projects, and will target a minimum of 75% (as a measure of NAV) of its new business to be UK solar. The Company will also seek to participate in other UK energy infrastructure projects, including energy storage.

Recent Activity & Outlook

The Company’s share price increased by 4p over the last quarter to £3.07 as at 31 December 2024. The Company remains protected from periodic spikes in inflation. In April 2024, the Company acquired AEI Solar Limited, which holds 1.725kW of roof mounted solar PV systems. In September 2024 the Company also acquired SIG Renewables Group, which holds 1,846kW of roof mounted solar PV systems. The Company is expected to acquire and/or build additional solar assets over the next 6 months.

About Armstrong

Armstrong is an experienced London-based asset manager focused on the impact investment sector in the UK. Armstrong has funded and managed over 350MWp of UK solar since 2013.

 ** An additional performance fee of 0.5% is due if annual returns are over 5%.

The credibility of Solar Growth is underpinned by the following factors...

Institutional Backing

The Company is backed by one of Europe's leading institutional investors, Aberdeen Standard Investments ("ASI"). ASI manages investments of more than £500 billion. The process for securing funding from ASI required the Company to undergo a rigorous due diligence process and for the Company to continue to operate the solar assets in accordance with the highest industry standards.

Strong Governance

The Company has external representation from independent directors with relevant expertise, such as Paul Beynon who was previously head of UK power trading at RWE. The board of the Company is required to approve all activities of the business, including new acquisitions and disposals.

Government backed Income Streams

The Company derives roughly half of its revenue from Renewable Obligation Certificates ("ROCs") and Feed-in Tariffs ("FIT"). The ROC and FIT payments are inflation linked (RPI) and backed by the government. The Company has reduced exposure to short-term merchant power prices making its near-term revenues highly predictable. Therefore, the Company is less exposed to any volatility in global events.

“ This investment provides our clients with access to yields not available in public bonds of similar credit quality. Furthermore, the inflation protection matches our clients’ long-term liabilities, and the green characteristics advance their Environmental, Social and Governance (ESG) agenda. ”

ASI

Approach To Valuation

- The Company is independently valued annually by Amberside Valuations. Amberside is a specialist valuer of infrastructure assets, such as solar and wind powered electricity generation assets.
- Amberside applies benchmarked discount rates against listed solar funds and comparable market transactions to evaluate the value of the Company's solar portfolio. In addition, Amberside reviews the assumptions used in the valuation model against standard industry practice.

“ We believe solar assets to be significantly lower risk than general infrastructure assets as solar has lower operational risk and costs ”

Amberside Valuations

Growing Value In The Portfolio

The assumptions used in the valuation modelling are conservative and do not factor in potential value uplifts in the existing portfolio. There is scope to enhance value, for example:

- Extending the planning permission and lease length of solar plants
- Combining solar plants with battery technology and other flexible energy generation systems
- Optimising performance over time through high quality asset management
- Reducing costs as the portfolio grows in scale, for example by renegotiating maintenance contracts, as the portfolio grows in scale

The Company's assertion is that these elements could represent achievable improvements in future value for shareholders in the Company.

The key investment considerations for investors are summarised below. The investor guide of Solar Growth should be referred to for finer details of the investment including the relevant risks.

Inheritance Tax & CGT

Business Property Relief (BPR)

100% Inheritance Tax (IHT) relief is given on transfers of the Company's shares which have been owned for at least two years.

Capital Gains Tax (CGT)

Capital gains for individuals within the annual allowance of £3,000 are tax free.

Fees

Investors in the Company will be charged a 4% initial fee. The initial fee will be added to the subscription price and will cover all administration costs of the capital raise and stamp duty, where applicable. Armstrong will charge an annual management fee of 1.5%** of the Net Asset Value of the Company. The Company will also pay Armstrong a fee for providing technical and financial asset management services to the Company.

Liquidity

It is the intention that the Company will offer shareholders regular liquidity to allow shareholders to redeem their investment in full or in part. The Company will seek to facilitate liquidity on a quarterly basis, subject to the availability of funds to do so.

Share Price Movement

Actual Annual Return as at 31st December 24

1 Year	2.7%
3 Year	7.4%
5 Year	4.2%

Solar Growth is targeting annual growth in its share price of 4-5%. The share price rose in the quarter to £3.07 due to the impact of adjustment of forecast prices for embedded benefits.

Important Notice

Your capital is at risk. Past performance and projected performance is not an indication of future performance. You may lose some, all or part of your original capital invested. Tax treatment depends on the individual circumstances of each investor and may be subject to change. The availability of tax reliefs depends on the Company maintaining its qualifying status. Investments in smaller companies will normally involve greater risk or volatility than investments in larger, more established companies. Please refer to the Investor Guide and seek independent financial, legal and tax advice before investing.
